Fire Department Re-Tile Bay Floor Bid

The City of West Columbia and the West Columbia Fire Department is accepting bids until Thursday April 4, 2019 from qualified contractors to replace the quarry tile floor in the apparatus bays at the fire department. The work is to be done at the West Columbia Fire Department, located at 610 N. 12th Street, West Columbia, SC 29169.

The work shall be done while still allowing the fire department to utilize a minimum of two (2) bays while work is being performed, as this is the only fire station the city operates. The work will consist of removing existing quarry tile flooring in the current bays, including the grout bed. Special attention shall be paid to properly preparing the concrete floor for the application of the new quarry tile and grout bed in accordance with manufacturer recommendations and industry standards. All tile shall be installed on a crack suppression membrane underlayment and aligned in a grid pattern. Align all joints with the base. Include expansion joints at 20-foot (minimum) intervals and at the perimeter walls.

Each bay shall have a field color and an accent color. The accent color shall be 9 feet wide and run the entire length of the bay. The accent color shall be Diablo Red. Ashen Gray will be used as the field color and applied over the remaining floor area.

Contractors shall be familiar with quarry tile and the application in areas with high traffic and extreme weights from fire apparatus. Bids shall include projected job completion time and how contractor plans to work with the fire department while tile is being replaced. Bid shall also include a one-year workmanship and manufacturers material warranty. Any questions or to see the area to be tiled, call Fire Chief Chris Smith or Deputy Chief Marquis Solomon at 803-791-4440.

All bids shall be sealed, marked "Fire Department Bay Floor" and dropped off to Customer Service at West Columbia City Hall, 200 12th Street, West Columbia, SC 29169 by 5:00 PM, April 4, 2019.
